Today

FEDERAL RESERVE ADVISES.
EVERYBODY BOUGHT.
RUSSIA ANSWERS THE POPE.
POOR GENTLE GANDHI.

—By Arthur Brisbane—

(Copyright 1930 By King Features
Syndicate, Inc.)

THE Federal Reserve chief tells
business to go ahead boldly,
showing more initiative, less hesi-
tancy.
Excellent advice. Business will ad-
vance the Federal Reserve, when and
if prosperity booms again, to be less
enthusiastic about promoting usury,
and run the Federal Reserve more
like a banking institution, less like a
pawnshop.

RESERVE BOARD financiers
that forced 15 and 20 per cent inter-
est rates, handing hundreds of mil-
lions to money lenders and adding
billions in value, temporarily, to in-
flated bank stocks, need advice as
much as any business man needs it.

Los Angeles oil-scandal-bribe-
ry case seems to have been a
complete job. One lady on the
jury confides that she was
promised \$20,000. A male juror
admits that interested parties
bought his house for about
twice what he paid for it. But he
never thought of corruption.
Other jurors were bought or
"got" in other ways. But to
make doubly sure, those accused
bought the district attorney
and he for a wonder, is in jail.

THE GOOD PEOPLE of Los An-
geles were spending thousands on
the last suit, trying to punish crime
and get justice for those arrested
in the oil robbery. And the accused
sat before a partly bought jury,
with an entirely bought district at-
torney prosecuting.

JOSEPH TOPLITZKY, student of
modern conditions, says "if
a man is guilty, he should go into
court, where he is quite sure to win.
But if he is innocent, he should
make the best settlement he can; he
would not have much of a chance in
court."

Russia, inflamed by the
poor's protest against atheistic
propaganda, retaliates, in vin-
dictive fashion. In the Min-
sk district a fund is started to
build an airplane, presumably
for war, to be called "Our An-
swer to Pope Pius." And from
the Veronish district, workers
send to the industrial fund at
Moscow ten caricatures of church
bells, sacred images, crucifixes,
etc., to be melted down. That
shipment is called "An Answer
to the Pope."

ONCE, SUCH A SERVICE as that
held in Saint Peter's by the pope
answered in such fashion by Russia,
would have started a crusade
against the Russian government.
The masses move more slowly now,
but there is no doubt that Russia
is building up ill will, more foolishly,
not only abroad, but more particu-
larly among her own people.

POOR, GENTLE, SINCERE
Gandhi, leader of the Hindu rebel-
lion, continues his pathetic march
to the sea. His plan is to manufac-
ture salt, without paying the usual
tax and see what Britain does. He
tells his followers "if you are sent
to prison, go proudly; if assaulted,

ward passed the Carmania less than
half a mile to port.

WASHINGTON, Mar. 24.—Prompt
passage of the administration's new

ocratic-Insurgent coalition lost its
final effort to limit tariff revision

FINAL ROLL TAKEN ON TARIFF; VACATION TO COME AFTER TONIGHT

Long Dispute On Tariff
Nears With Actions
Of Legislators

(By The Associated Press)
WASHINGTON, Mar. 24.—Wear-
ily and gratefully the senate today
came to the conclusion of its bit-
ter, tense dispute over the Smoot-
Hawley tariff bill.

The long awaited final roll call
was delayed only for speeches by
factional leaders summing up their
opinion of the measure in its com-
pleted form and disposition of a
motion to return it to the finance
committee with instructions to con-
fine all rate increases to the agri-
cultural schedules.

Senate leaders confidently ex-
pected a vote and passage of the bill
for adjournment tonight and then
were ready to recess for a week of
rest.

As formulated by the senate the
bill differs in hundreds of details
from that approved by the house.

Must Be Approved

These differences will be composed
by conference committees represent-
ing both the house and senate and
the conference report must then be
approved by both chambers. The
measure is expected to be in con-
ference for more than a month.

The senate's conference committee
will be made up of Chairman Smoot
of the finance committee and Sen-
ators Watson, of Indiana, Shortridge
of California, Simmons of North
Carolina, and Harrison of Missis-
sippi.

Summons and Harrison are the
ranking Democratic members of the
committee.

The house will be represented by
Chairman Hawley of the ways and
means committee, Treadway of Mas-
sachusetts, and Bacharach of New
Jersey, Republicans, and Garner of
Texas, and Collier of Mississippi,
Democrats.

Senator Smoot thinks it will be
nearly a week before the conference
can begin as he believes it will take
that much time to print the re-
vised bill and carry out the usual
and necessary preparatory formal-
ities.

HOTEL BLAZE IN OHIO COSTS LIFE

Property Damage Estim-
ated At \$25,000; Many Are
Endangered by Fire

CLEVELAND, March 24.—One
man was burned to death and 100
other guests fled down fire escapes,
were taken off the roof or leaped
from windows as flames swept
through the annex to Hotel Perkins,
East 81st and Euclid ave., last night.
The fire, believed to have started
in a barrel of rubbish in an aban-
doned dumb waiter shaft, on the
first floor, spread so quickly that
only the prompt arrival of firemen
and the coolness of most of the re-
sidents averted a serious tragedy.

Wallace K. Pinniger, 75, informa-
tion clerk at the Federal Reserve
bank, apparently was trapped by the
flames as he tried to flee down the
front stairs. His body was found be-
tween the second and third floors.

Firemen estimated the damage at
\$25,000. The hotel proper was not
damaged. The annex was a four-
story brick structure, containing
about 30 suites, located in the rear.

George Has Gift For Naval Experts

LONDON, March 24.—King
George today presented each of the
seven American naval conference
delegates with a photograph record
of his address before the conference
some time ago.

Each record was contained in a
leather case lined with plush. The
outside of the case bears the royal
coat of arms in gold while on the
inside cover is the King's auto-
graph and the name of the dele-
gate. The king's private secretary
took the records to the American
headquarters.

Police Conduct Raid On Broadway

The place of Julius Viollo,
Italian, South Broadway, was
raided about 3:30 p. m. Sun-
day by Patrolman Ralph Stof-
fer and Edward Piller. A quart
of alleged liquor was found, the
officers state.

Viollo was arrested and is out
on \$1,000 bond. Mayor John
Davidson has set his trial for

POND DRAINED IN SEARCH FOR MISSING CHILD

Silt, Mud On Bottom May
Cover Body of Boy,
Is Belief

(By The Associated Press)
WOOSTER, March 24.—Searchers
planned to poke about the muddy
bottom of the Orville Country club
pond today for the body of Melvin
Horst, four-year-old Orville boy
missing since December 27, 1928.

The pond was nearly drained yester-
day without a trace of the boy's
body as officials acted on the latest
story of Charles Hannah, indicted
on first degree murder and child
stealing charges as a result of his
statements that he killed the van-
ished boy.

Last night, firemen began dig-
ging in the mud and silt, but put
their final search over until today.
They believe that there might still
be some chance that the body would
be found covered with mud or in one
of the pools of water which the fire
engine could not dry out after
pumping all day yesterday.

The engine was brought from
Rittman yesterday when draining of
the pond started Friday by opening
a gate at the bottom, proceeded too
slowly.

Ten thousand persons watched
the engine pump the pond nearly
dry.

In the crowd was Raymond Horst,
father of the missing boy.

DAQUE ON TRIAL IN NEW CASTLE

Will Face Murder Charge
After Death Of
Policeman

NEW CASTLE, Pa., March 24.—
W. Glenn Daque, charged with the
murder of Corporal Brady Paul,
pleaded not guilty when arraigned
before Judge R. L. Hildebrand this
morning.

NEW CASTLE, Pa., Mar. 24.—
Just as he followed Irene Shrader
along a path of crime, W. Glenn
Daque, Wheeling, W. Va., today fol-
lowed her in a fight for life.

Charged with the same crime—the
slaying of State Highway Police-
man Corporal Brady Paul—Daque
was scheduled to go on trial in the
same courtroom where on Friday
night Mrs. Shrader was convicted of
first degree murder, a verdict that
carries the death penalty.

Attorneys for Mrs. Shrader were
ready to appear before Judge J.
Lawrence Hildebrand with a motion
for a new trial. Mrs. Shrader will
appear at Daque's trial as will the
wife of the former automobile sales-
man, who he deserted, to join the
blonde gunwoman in a career of
banditry.

Paul was slain on the road near
New Castle last December 27 while
questioning Mrs. Shrader, Daque
and Tom Crawford, the woman's
brother, regarding a holdup which
Daque and Mrs. Shrader admittedly
committed at Butler, Pa.

Founder's Day In Church Observed

An attractive demonstration "The
Lighted Highway" featured the
Founders Day program of the Women's
Foreign Missionary society of the
Methodist church Sunday
evening at the church. There was
a large attendance. Mrs. Lee W.
Atkinson, president of the society,
presided.

The cast in the demonstration in-
cluded Mrs. Floyd Stone, Miss Zillah
Stamp, Miss Ella Stamp, Miss
Esther Rollins, Miss Eleanor Mc-
Murray, Mrs. F. J. Stout, Mrs. Glen
Hurd, Mrs. Ray Kenneweg. They
were in costume. Members of the
King's Heralds sang a song. Mrs.
Charles Cornwell contributed a
vocal solo, "My Task," and "Take My
Life and Let It Be" was sung by
Mrs. R. L. Smith. The church was
decorated with palms and colored
candles.

Founders day is in observance of
the organization of the national so-
ciety, which was organized 61 years
ago March 23, at Boston, through
two women, wives of foreign mis-
sionaries.

NO HARM CAN COME IN ANSWERING QUESTIONS DURING CENSUS TAKING

Tally Does Not Effect Jury or Military Service,
Immigration or Law Enforcement; Data
Gathered Very Important

No person can be harmed by an-
swering fully the questions asked in
connection with the 1930 census, ac-
cording to H. A. Marshall Cronin,
census supervisor of the 15th dis-
trict of Ohio.

There is nothing to do with tax-
ation, military or jury service,
school attendance, regulation of im-
migration, or the enforcement of
any national, state or local law or
ordinance, Mrs. Cronin explains.

The principal questions, which
apply to everybody are age, birth-
place of father and of mother;
whether single, married, widowed,
or divorced; occupation and indus-
try; whether attending school; whether
able to read and write; whether
home is rented or owned; value of
home if owned or monthly rental
if rented; whether there is a radio
in the home; and whether person
enumerated is a veteran of the
United States military or naval
forces.

Persons who usually work at a
gainful occupation but who were
not at work on the day before the
census was taken will be asked
whether they have a job and are
merely laid off temporarily, or whether
they have no job at all.

Those who have no job will be
asked the cause of their temporary
unemployment, how many days they
worked last week, and whether they
lose a day's pay by not being at
work.

Those who have no job will be
asked how many weeks they have
been out of work, and the reason for
their unemployment.

All foreign persons born in a for-
eign country will be asked: Year of
immigration to the United States;
whether naturalized; and the lan-
guage spoken in the home in the
country where born.

The schedules on which the an-
swers to the census questions are
written will be sent to Washington.
There the answers will be copied on
cards, not by writing, but by punch-
ing holes in the card, just as a con-
tinued on page 3)

ENGINEER STAYS AT POST-TRAIN WRECKS IN OHIO

Veteran Gives Life When
Locomotive Crashes
From Rails

(By The Associated Press)
MANSFIELD, Mar. 24.—Engineer
Charles A. Bell, was dead today be-
cause he elected to sacrifice his own
life rather than risk injury or death
to his 80 passengers.

Bell was at the throttle of the
New York-Detroit limited fast Penn-
sylvania train, when a woefully weak
locomotive failed to take a
switch near Spring Mill Junction,
six miles west of here, early yester-
day.

He had a few seconds in which he
could have leaped for his life, but
Bell, facing certain death, held his
post and set the air brakes which
ground the nine Pullman cars down
to a stop at the expense of nothing
more than a shaking up to the sleep-
ing passengers.

The engine, bouncing down the
line, careened into a ditch, and
buried its nose eight feet in the
soft earth. Hours later acetylene
torches cut the twisted steel away
from the engine's body.

Fireman P. F. Jensen was thrown
from the cab, seriously scalded. Both
Bell and Jensen lived here.

The coal tender and the engine
were demolished and the two bag-
gage cars and an express car next
behind were turned on their sides,
but the Pullmans remained upright.
Traffic was tied up eight hours.

Many Expected At Trial Drama Here

A large number of people are ex-
pected to attend the murder trial
drama entitled "Who Killed Earl
Wright?" at 8 o'clock at the high
school auditorium, sponsored by a
local temperance committee. No ad-
mission will be charged.

V. A. Schreiber, of Canton, and
Mr. Schweiberger, of North Can-
ton, take the roles of prosecutor and
attorney for defense in the "trial."
Several Salem ministers and other
local people comprise the cast.

FINAL ATTEMPT AT CONFERENCE TO COME SOON

Three-Power Agreement
Expected If France
Keeps Attitude

TARDIEU REMAINS
AT PARIS POST

Deny Reports France Has
Walked Out of Naval
Parity Meeting

(By The Associated Press)
LONDON, March 24.—Prime Min-
ister MacDonald and Secretary
Clemenceau are going to have at least
one more fling at developing a five
power naval limitation treaty from
the prolonged negotiations of the
naval conference.

Their efforts this week will be di-
rected, until such time as they ap-
pear futile, toward achieving an
agreement between all the powers
presented here embodying not only
limitation, but possibly paper, re-
duction, and such other points of
agreement as are possible, failing,
the two leaders almost inevitably
will turn to a three power pact be-
tween Japan, Great Britain and the
United States, affixing their naval
standings very much in accordance
with the Rapin agreement, and
hinging them upon maintenance of
the status quo in Europe.

If France or Italy should build
new war craft to an extent any of
the three signatories might regard
as endangering their security that
nation might, upon giving due no-
tice, increase her own construction
programs with a consequent propo-
rtional increase in the levels of the
two other nations.

Until Andre Tardieu, French
premier, and Aristide Briand, his
foreign minister, return from Paris
their efforts probably will consist
largely of marking time. Jacques-
Louis Dumesnil, French minister of
marine, came back from Paris today
but his two conferees may not reach
here for several days, possibly next
week and possibly even considerably
later.

Both were quoted in Paris dis-
patches as wishing to allay any
suspicions that France has walked
out on the conference. They assign
as reason for remaining in Paris
necessity of forcing the budget
through the senate by April 1. M.
Tardieu previously had said he
would not return to London before
there seemed something definite he
could do there.

Explosive Used for Fish Expensive

Mike Richard and Joe
Blindenbacher of near Se-
bring will not go fishing again
for some time, and when they do
it will be probable that they
will use different tackle than

Mike and Joe admitted to
Justice's third disastous water-
front fire in the last 30 years was
still burning today, but firemen had
under control the flames which de-
stroyed piers 15 and 16, and a large
quantity of merchandise. Estimates
of the loss varied from \$3,500,000 to
\$4,500,000.

The fire started late Saturday
night in an oil and rag dump 200
feet from pier 16. A wooden struc-
ture 500 feet long, which it consumed
within a few hours. The flames
then followed a layer of oil on the
water to the wooden underpinning
of pier 15 and spread along 1,000
feet of bulkhead under the steel
structure.

The flames attacked pier 14 twice,
but both times were extinguished.

Five vessels of the Lamport and
Holt line, which owned the piers,
were towed to safety in the middle
of the river by fire boats. They
were the 21,000 ton liner Voltaire,
the Cld, the Strabo, the Bruyere
and the Bernini. The Cld, a
freighter, was loaded with oil.

Three firemen were injured, one
seriously, yesterday while fighting
the blaze. Several others were
overcome by smoke.

IT CAN BE DONE

Two radio entertainers, known to thousands as Gene and Glenn, are doing wondrous things in Cleveland. Their popularity on the radio more than assured by three months of excellent clowning as "Jake and Lena" and the friends of these two, they decided their act might make some money on the stage. It did—more than has ever been made in one of the most popular theaters in the United States.

The crowds that fight for seats at their performances exceed in number those which have been pointed to with pride by great celebrities. All for a pair of radio entertainers who gained favor by making people smile at an hour in the morning when the usual inclination is to kick the dog around the kitchen while the eggs are frying.

Not so long ago one of these men was plugging songs in a five-and-ten-cent store. The other played in vaudeville for years with no particular success. The happy chance which brought them together was just another partnership as far as they were concerned. "Jake" and "Lena," character created by Gene, were known to radio listeners but it was anticipated that the dissolution of the original partnership which introduced them to the public would mean their end. Instead, they "caught on" with unseen thousands and the two performers, quick to see the possibilities, made them more attractive by placing them in a continuity so that the day-by-day radio listener could follow them.

It's not an extract from a moving picture or a novel. It has really happened. Two men have been made independently wealthy, if they chose to be so, by their own ambition and an appreciation of homely humor. They are brightening the lives of thousands with their foolishness and getting paid well for it. If questioned, they might give some interesting views on "America: Land of Opportunity."

THE LINK IS BROKEN

Lord Balfour, last of the old school of British statesmen, was buried Saturday amid the mingled tears of many nations. Americans, to whom he endeared himself by his manners when visiting this country on the occasion of the Washington Arms Conference, were especially saddened by his death last Wednesday.

Lord Balfour did much to increase good will among English-speaking peoples and brought Great Britain and the United States into a more amicable relation.

Lord Balfour linked the past and the present. He carried over into an age of skepticism and hard informality the dignity, the certitude and optimism of the Victorian age. In his fifty-six years of active political service he became a distinguished figure in British government and held at one time the post of prime minister.

The fact that his early political activities were characterized by none of the merit which more lately made him outstanding only endears him the more. He had, perhaps, more than the usual handicaps to overcome, but the manner in which he scored his victories was nothing less than glorious.

The methods which the Earl of Balfour pursued in politics marked him as an ideal diplomat. He was never harsh, striving rather to convince his opponents by convincing them of his friendliness and his conviction of perfect equality with them.

The London Naval conference, which passes in its work to commemorate his passing, may well be impressed with the efficacy of his diplomatic procedure.

The heritage which the world holds today from this distinguished statesman consists of more than

pleasant memories of his character and conciliatory methods.

There is the Balfour declaration on allied debts which expedited greatly the process of readjustment following the war. There is the designation of Palestine as an ultimate Jewish state and last of all the policy of American-British parity in warship tonnage pronounced at Washington in 1921-22. It is of prime importance today.

Great Britain and the world lose a mighty force for good in this mild-mannered man who, on his death bed, called his servant to him and thanked the aged man for his faithful service. He was the withered bloom of an age which produced many remarkable characters.

The German reichstag has adopted the new law for the protection of the republic, which, unlike the old defense law, doesn't bar the re-entrance of the former Kaiser into Germany. It may be some satisfaction to Wilhelm to know that the way is open, but it's about a million-to-one shot that he will never seek to take advantage of it.

UP AND TRIUMPHANT

Genes from Paris brief but official announcement, "at the world's fair," the organizers have learned their lesson. They have effected, after a year of effort to bring down to ankle length or thereabouts the skirts of civilized womanhood they have found their endeavor to be futile. And so, as graciously as possible, they give permission for the skirts to go back to where they were before the coars commanded them to come down.

"There is to be sure, a protocol added to this treaty of peace. Former evening gowns must continue to be neighborly with their wearers' ankles. But for street wear and all kinds of daylight wear the kneeling skirt is at least tolerated. Really, the protocol does not amount to much. "Party dresses" may be anything the coars fancy and womanhood will not be greatly worried. It was the annoying and constricting daylight skirt which stirred the feminine rebellion. This, and the probability that surrender at this time would be followed shortly by a further "ukase" bringing the skirts actually down to the street-sweeping length so characteristic of the fashions of the "gay nineties."

We heartily congratulate the women of the United States for their triumph over the Paris despots, and we congratulate the women of Europe, too. But we have a feeling that our own women played the larger part in the victory.—Cleveland Plain Dealer.

HEALTH

By Dr. Royal S. Copeland

IF HEART MISSES A BEAT

There are many people who are actually in pretty good health and yet who have irregular heart action. Of course, the normal perfect heart in a well person should be regular in its pulsations, quite deliberate in rhythm, going steadily along. If the heart drops a beat now and again, or even when it slows up perceptibly, you begin to worry about what's the matter.

Well, it is not apt to be anything serious. It is due to nothing probably but a condition that can be remedied.

The heart is a wonderful organ. It can adjust itself to many varying conditions. It was meant to be so. A person meets with some sudden have to jump, or

obstacle, he may have to jump, or to run, or do almost anything in the way of vigorous exercise under stress and strain. His heart has an instant and severe strain. Perhaps some accident occurs. Hundreds of them take place every day. The heart has many extraordinary efforts placed upon it.

Much care should be given a child after diphtheria or influenza, or indeed after any fever. These diseases often leave damaged heart muscles. Fortunately these conditions are almost sure to clear up with restored health.

We need bodily exercise in moderation so as to keep the body muscles strong and the heart muscles as well. Many a disturbed, weak heart is strengthened by regular moderate physical exercise taken every day.

Of course, we are not talking now of rest in heart troubles. Any violent exercise, when it is known that any organic lesions of the heart are present, is rank folly. If there is suspicion of any such condition, you should see a physician and have his advice.

We are living in an age which necessitates constant strain and stress if we are out in the world doing the world's work. It is incumbent on everyone to slow up and take stock of health once in a while. Be advised by your doctor what exercise, if any, you need. If people would have medical care often, many untimely deaths would not occur. Deaths due to heart disease are on the increase to a worful extent.

If, however, you live a sensible life, take all things in moderation, have plenty of sleep, proper exercise, have good nourishing food—neither in excess nor to be undernourished—then the chances are that any slight weakness of the heart will soon mend. Many a person has found that with care and common sense the health can be built up to such an extent that these minor weaknesses disappear like magic, and life is made worth while.

Highlights Of Ohio History

By J. H. GALBRAITH

Captain J. B. (S) Allen, of Athens, former clerk of the Ohio supreme court, wrote the writer as follows a few years ago:

"Your extracts from Captain Allen's diary of the 38th Ohio regiment, which I have read, remind me that General C. C. Walcutt, of Columbus once told me of an incident relative to the organization of that regiment. It was mentioned in on the campus of the state house in Columbus.

"Before the organization was presented for muster Colonel Bausewein called upon the members of the regiment who did not want for any reason to enlist for three years to step forward and state their reasons. In response to this one stalwart young fellow stepped to the front and gave the colonel his reasons for not wishing to enlist for that length of time.

"That's all right," replied the colonel and then knocked him down and kicked him. As the unlucky fellow picked himself up and hobbled painfully back to his place Colonel Bausewein announced in a loud

voice that if there were any others who had such reasons they should come forward at that time and give them to him. "Is there any other man in the regiment who does not want to go?" he reiterated, but there were no other responses and the regiment was presented for muster.

"I thought," wrote Captain Allen also, "that in your reminiscences you would like to write a short biographical sketch of the officers of the 38th O. V. I. in the Civil war. There certainly was no regiment in the U. S. service that developed so many illustrious men as the following:

"Col. Wm. S. Bausewein, who later commanded an army; E. F. Seaton, afterward a major general; Rutherford B. Hayes, afterward President of the United States; James M. Conly, afterward minister to Hawaii; Shelby Matthews, who became a U. S. supreme court justice; Lieutenant Colonel Hastings, who was adjutant general; William McKinley, who became president of the United States, and Captain W. C. Lyons, who became lieutenant-governor of Ohio."

CABARET OWNER BADLY WOUNDED

Texas Guinan Questioned By Police After Man Reports Shooting

CHICAGO, March 24.—Texas Guinan has made her last appearance at the Chicago night club and her first at the Chicago police station.

The Green Mill cabaret was closed by police after Miss Guinan and others had been questioned, concerning the shooting of Leon Sweetser, owner of the club.

Harry O. Voller, business manager for Miss Guinan, was arrested in connection with the shooting, along with his reputed bodyguard, Arthur D. Reed. Police said both are ex-convicts. Police did not detain Miss Guinan.

Texas was leaving this week to take "her girls" to Europe and partners aboard by the liner of the cruise line and the clatter of dancers did not bother Sweetser running down the stairs into the lobby, down from three wounds.

Came For Rent

Sweetser, who owns the little club, a gold coast rendezvous where a bomb was found recently before it exploded, had come to "see Voller about the rent," he told police.

From his hospital cot, Sweetser identified Voller and his bodyguard as two of the three who shot me, the other one I could not remember.

According to Sweetser, the argument in Voller's office was over the lease of the famous hostess held on the Green Mill, which ran until May first. One of the bullets struck Sweetser in the chest, another hit an arm and a third pierced a leg.

As Sweetser ran from the building, a detective entered; he soon had Voller and Reed in a cell. At the detective bureau, it was said Voller served a prison term for holding up the Swatlow hotel in Detroit and was later arrested for robbery in St. Louis.

Science Attacks Blankets of Fog

CAMBRIDGE, MASS., March 24.—Announcement of a new kind of attack on fog at Massachusetts Institute of Technology's new meteorological observatory was made today.

It aims literally to learn how fog particles are put together, with the hope that this knowledge may show how to take them apart in some more effective manner than now known.

The attack is now in the wide field over which it proposes to penetrate farther than ever before into the most minute and prosaic details of fog structure and antics. Prof. C. G. Roessy is in charge of the observatory.

Policeman Finds Big Liquor Cache

NEWBURYPORT, MASS., March 24.—Twenty four thousand quarts of liquor, with a retail value of \$240,000, were found on the landing of a yacht club here, today. It was unguarded.

Discovery of the cache was brought about when patrolman Daniel Lynch became suspicious of several trucks coming from the direction of the beach.

CENSUS

(Continued from Page 1)

dictor punches the date on a ticket. There will be a card for every man, woman, and child in the United States. These cards, which are about the size of postal cards, will be run through counting machines, operated by electricity.

One of these machines can count about 400 cards a minute or about 24,000 an hour, if there are no skips; but more than that, it can count several things at once.

For instance, if cards for the pupils in this school were run through the machine, it would count the number of boys and the number of girls in the school, how many of each sex were 10 years old, 11 years old, 12 years old, and so on for each year of age, how many were born in this country and how many abroad, how a dozen other facts—all counted at the same time and while the cards ran through the machine at the rate of seven per second.

Use of the Census

By means of the census we learn not only how many people there are in the United States, but how many there are in each occupation or profession; that is to say, how many teachers there are, how many lawyers, doctors, ministers, merchants, engineers, machinists, farmers, carpenters, etc.

We find out by the census how many people in the United States were born in each foreign country—in England, in France, in Italy, and every other foreign country.

The census tells how many children there are and how many are attending school. We learn how many people there are who can not read and write, how many there are who can not speak English. We shall learn through the census all about the farms in the United States, Mrs. Cronin states.

ANIMAL CHARGES HUNTER - PRINCE

English Heir Uses Camera To Get Pictures As Friends Felt Giant Pachyderm

RHINO CAMP, UGANDA, BRITISH EAST AFRICA, Mar. 24.—Crashing, lumbering with giant strides toward the Prince of Wales, a great bull elephant was killed by hunters a few days ago when it charged the British heir. The pachyderm fell within 20 yards of his royal highness.

The prince, oblivious to his danger, throughout the charge continued operation of a small motion picture camera he had with him and secured an excellent film, which included the fall of the elephant.

The hunters accompanying him shouted warnings as the elephant, angered at invasion of his retreat, lifted his trunk, and trumpeting, started directly for the party. No shots were fired until it was seen the prince was so intent on his picture he did not realize his danger.

The prince broke camp here Saturday and started on his safari into the Belgian Congo. He appears the picture of health, and is browned and sunburned from his tropical experiences.

FIRE RAVAGES OHIO VILLAGE

Nine Stores, Eight Homes Destroyed By Blaze In Murray City

MURRAY CITY, O., March 24.—Fire, starting from an overheated stove, early today destroyed, or damaged, nine business places and consumed five homes, with a damage estimated at \$65,000.

The blaze started in the Fred Kinnear confectionery on the north side of Main street and spread rapidly until buildings on both sides of the street were in flames. Volunteer firemen were unable to check the blaze.

Fire fighting equipment was brought from Nelsonville, Logan, Gloucester and New Straitsville, and after a several hour battle were able to extinguish the blaze. Because of low water pressure the fire departments were forced to pump water from Bruk Park creek nearby.

A building operated by the Bailey Drug company was destroyed and three families that lived in apartments above the drug store escaped uninjured. Among the principal business places destroyed were the James Smart Hardware, the H. S. Sayre grocery and the Miller Brothers jewelry store.

The Knights of Pythias hall was slightly damaged.

GIRL NAMES MAN IN TEXAS CRIME

Was Strapped to Bed As Fire Was Started; Falsehoods

FAIRFIELD, TEXAS, March 24.—Named by Miss Wilma Jones, 23, as the man who attempted to burn her to death in a hotel room, Tom Dodd, 30, has been spirited from jail here by Texas rangers who refuse to announce his whereabouts. The rangers did not explain the reason for their act.

Dodd attempted to burn her alive when she told him she would inform officers he had received part of the proceeds from a forged check, the young woman said.

The girl admitted a previous story that she did not recognize her assailant was false. The rangers said Miss Jones declared G. S. Moore, wealthy Oakwood business man, charged with arson in connection with the case, did not set the fire and did not have the crime committed.

Miss Jones, bound and gagged, was rescued from the room Wednesday night by the hotel proprietors. She was not burned.

Moore was arrested and released on \$1,000 bond, shortly after the attempted burning. The girl, whose home is in Oakwood, was in Fairfield for trial on charges of forging the merchant's name to several checks.

After a several day investigation by rangers and county officials, Dodd, and his mother, Mrs. Sarah Jane Dodd, were arrested and charged as accessories with the girl in the forgery.

The woman was released Saturday on \$500 bond.

BIDS OPENED IN COLUMBIANA FOR NEW TOWN HALL

Structure Will Replace One Recently Torn Down in Village

COLUMBIANA, Mar. 24.—At a special meeting of the Columbiana village council bids were opened for the new town hall.

The construction contracts will probably be awarded at the meeting of council Tuesday evening.

There were 10 bids for the general contract, ranging from \$14,492.66 to \$21,300.60. The low bidder is the Madden Construction Co., of East Palestine.

There were three local bidders: R. E. Mather, Harry Yarian and E. W. Tyson & Son. The A. F. Best Electric Co., Youngstown, with a bid of \$497.00, were the lowest for the electrical work.

P. C. Kaereber, Youngstown, offered the lowest bid on the plumbing, \$1119.00. For the heating, the only two bidders were tied at \$1985. They were the 20th Century Co. of Akron, and the American Warming and Ventilating Co.

The village fire apparatus and jail cells will be moved April 1st from the garage of the Columbiana Motor Co., East Park ave, to the remodeled municipal building, W. Friend St. and Lisbon St. intersection.

The garage quarters were only temporary, during the cold weather, since the raising of the old town hall. Village authorities have ordered the purchase of a new chlorinator for use at the disposal plant. One has been on trial for three months and has proven satisfactory.

The two troops of Columbiana Boy Scouts were at Salem Thursday evening to hear the concert of the Ohio State university band. The concert was preceded by a dinner at the Salem M. E. church.

Will Leave Position
Prof. F. J. Sewall, superintendent of the Columbiana schools for the past six years, has announced that he is not an applicant for the position next year.

Sewall came here from Bristolville, Trumbull county, at a time when the local schools were in a somewhat chaotic condition, and succeeded in building the Columbiana schools to their present high standard. His future plans are as yet undecided.

bear it cheerfully; if shot, die peacefully."

That accords with our Christian "turn the other cheek" command, but it is not the program of victory. Not the method that has secured freedom for the oppressed in America, France, Russia or anywhere.

GOLF LINKS, DAILY DOZENS, radio setting up exercises and other devices are designed for the man who leads a sedentary life physically.

Edison wants to know "what about the man mentally sedentary and inactive. Who will plan something for him?" Many millions need to be called early on the radio with this question, "how long is it since you have exercised your mind? How much reading worth while do you do, and how much do you think as you read?" It is mental, not physical inactivity, that hurts a nation.

MRS. ELLA A. BOOLE, of Booklyn, president of the Women's Christian Temperance Union, is not worried about prohibition. She says the Eighteenth Amendment, giving ice water to men, will stay in the Constitution as long as the Nineteenth Amendment giving votes to women.

Prohibition, in the Constitution, will undoubtedly outlive this century, barring a workers revolution, which won't come. But souvent femme varie, "often woman changes her mind," is true, and women themselves may change laws made to enforce and interpret the Eighteenth Amendment. They may say that half of one per cent alcohol is too much, or decide that beer used by many, temperately, and wine made by divine miracle for the marriage, may be used.

NEW ZEALAND WOMEN were as ardent for prohibition as Mrs. Boole, and they closed all the saloons. After they had lived with their husbands for a while, each husband with a bottle under his mattress, they voted the saloon in again.

STOMACH UPSET

Get at the real cause. That's what thousands of stomach sufferers are doing now. Instead of taking tonics, or trying to patch up a poor digestion, they are attacking the real cause of the ailment—dilated liver and disordered bowels.

Dr. Edwards Olive Tablets help arouse the liver in a soothing, healing way. When the liver and bowels are performing their natural functions, people rarely suffer from indigestion and stomach troubles.

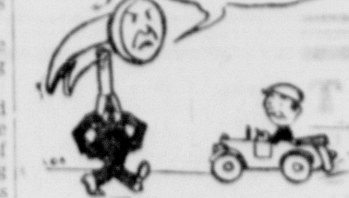

Have you a bad taste, coated tongue, poor appetite, a lazy, don't-care feeling, no ambition or energy, trouble with undigested foods? Try Olive Tablets, the substitute for calomel.

Dr. Edwards Olive Tablets are a purely vegetable compound. Know them by their olive color. They do the work without griping, cramps or pain. All druggists, 15c, 30c and 60c.

Take one or two at bedtime for quick relief. Eat what you like.

Two of the great enemies to youth and vitality are delayed elimination and intestinal poisons. To keep yourself free from both these common difficulties will help you to stay young.

With the use of Nujol you can do it too. For Nujol absorbs body poisons and carries them off, preventing their absorption by the body. Nujol also softens the waste matter and brings about normal evacuation. It is harmless; contains no drugs or medicine. It won't cause gas or griping pains, or affect the stomach or kidneys. Every corner druggist has Nujol. Make sure you get the genuine. Look for the Nujol bottle with the label on the back that you can read right through the bottle. Don't delay, get Nujol today.

Graduation Plays Havoc In Ranks Of Championship Stivers "5"

Good Material Still Coming On To Close Gaps Left In Team

(By The Associated Press)
COLUMBUS, O., Mar. 24.—Stivers High of Dayton will be without the valuable services of Bill Hocket next year in its drive for a fourth consecutive state high school basketball championship, but its rivals for the honor will be called upon to face another good Stivers team with a center, who looks better as a freshman than Hocket did in his first year.

At least, that's the opinion of Stivers' coach, Floyd Stahl, and those who think Stivers will be just another basketball team after the graduation of its all-state center can take it for what it's worth.

A boy named George, whose first name is unimportant as yet, is the lad on whom Stahl is counting to replace Captain Hocket who led his team victoriously through all its 30 games this season and clinched the record by defeating East High of Akron 18 to 16 here last Saturday night for its third straight state championship.

Max Padon, Stahl's star forward, and Robert McConnell, his best defensive guard, will be graduated in June along with Hocket. Stahl will start the next campaign with Tom Denny, regular forward, and Martin Ambruster, the running guard, who started most of Stivers' play.

Select All State Team
Hocket and Padon both were

named on the all-state honorary team, along with Russell Ertay of Akron East, at forward, and David Appleby of East and Hoy George of Canton McKinley at guard.

It was Hocket alone who kept East out of the championship Saturday night. Coach Warren Vannordall's boys, playing their best game of the year, and wholly unafraid of Hocket or his reputation, played Stivers to a standstill for 30 minutes. They tied the score at 4 to 4, 7 to 7 and then at 16 to 16 with two minutes to go.

Stey shot the tying goal which clinched the demoralization of Stivers' smooth offense and sent the huge crowd of 6,000 spectators into a delirium of excitement. The next minute he fouled Padlow of Stivers near the goal. Padlow missed the first throw, but the second free shot seemed to be missed purposely to provide an opportunity for Hocket to tip the ball into the basket for two points on the rebound.

Anyway, that's exactly what happened, giving Stivers the 18 to 16 edge which they held to the final gun.

St. Mary's of Lancaster almost set an all-time record in winning the class B championship from Rome township High school of Princeton, Lawrence county. The score was 34 to 3, and Rome did not score until the last few minutes.

Hurl No Hit Tilt

NEW ORLEANS, March 24.—Wes Ferrell and Willis Hudlin, backbone of the mound staff, have convinced the Indians their late arrivals after playing holdout didn't set them back in getting into condition. They pitched a no-hit game yesterday, believed to be the only one in spring exhibition games, against the New Orleans Pelicans. The Pels got one run on account of Ferrell's wildness while the tribe got eleven.

May Stay Up

ORLANDO, Fla., March 24.—There is a possibility that Al Eckert, young southpaw, who belongs to the Peoria club may not go back there. Dan Howley, manager of the Cincinnati Reds, said he is seriously considering keeping the youngster because of the impressive showing he has made in practice and in exhibition encounters.

JOHNNY RISKO BACK IN GOTHAM TO BATTLE IN ARENA WITH CAMPOLO

BY DAVIS J. WALSH
NEW YORK, March 24.—They didn't have any boxing commission in Israel, so Goshit was unable to get a return match with David and his unfortunate manager had to go back to work. But there are enlightened times and tonight they are bringing Victoriano Campolo, the seven-league man from Argentina, back with Johnny Risko in order that John may experience the rudimentary fun of fighting twice for the chance of winning one. Before the evening is over, we ought to have a definite idea of whether this particular "foreign menace" is a real threat against the heavyweight championship or just one of the deck hands on the good ship Fast-out.

Must Have Menace

Of course, we must have a foreign menace. The New York boxing commission is unhappy without one. It held Scott to be a menace even though he wasn't quite sure about it himself and it told Campolo to

keep right on menacing, too, which he then went and did.

He was such a swell menace, from the commission's viewpoint, that it refused to be a party to an atrocity and wouldn't let him back our John in public here. So the garden put the thing on at Miami and everybody said John won seven out of ten rounds.

There was, I believe, an exception to this view. The man who held it was only the referee. Anyhow he called it a draw, thereby proving that everybody was out of step except himself.

Back In Gotham

So it seems that John had to go out of town in order to fight his way into New York again. He wasn't good enough for Campolo before but today he is a 7 to 5 shot against the giant and in the commission's own show, too, a benefit affair for the local cancer hospital. Thus, we have chickens coming home to roost and laying eggs, at that, for the hand that drove them forth.

The quoted odds on Risko are not those of the intelligentsia, however. The critics who saw Risko as winning at Miami see him as losing this fight, their reasoning being that Campolo will be twice the man he was a month ago. Some of them even see Risko as the victim of a knockout.

It appears, according to their judgment, that Campolo was ruined at Miami by an effort to make him a boxer. They further say that he was solving Risko's style as the fight wore on and that John, being an unchanging in his methods as a street cleaner, will find Campolo's rally in the tenth round at Miami carried right on into tonight's fight. Another condition that has them confounded is found in the fact that John is the favorite. They say he seldom wins when the money says he should.

former wife \$25 monthly for the support of minor children.

Hutton now resides in Madison township this county, and in a petition filed in common pleas court against him the claim is set up that he has paid nothing on this court order, and that he now owes \$2,050.

The petition has made the Union Savings & Loan Co. of East Liverpool a party defendant, and the money Hutton has on deposit there and cattle he has on his farm, and not exempt from execution has been attached under an affidavit that has been filed by Attorneys Brookes & Thompson with the petition.

It is also related in the petition that the defendant has sufficient money with the loan company to pay the amount sought in the petition, judgment for which is sought.

It is further shown by the petition that the transactions were made for the purpose of embarrassing the plaintiff. The petition also sets up that the time the deedeed were made that the McIntosh owed personal obligations of over \$500.

"Owa-Ton-Na Surely a Blessing To Me," Says Local Man

"Corrects Disorders of Twelve Years Standing Which Were Getting So Severe, They Had Me Worried"

Another remarkable victory for Owa-Ton-Na is the case of Mr. Charles Schumacher, Ferndale Road, N. W. Canton, Ohio. Mr. Schumacher, who is an auto mechanic for the Summer Creamery, tells how this fine old Indian Remedy conquered when everything else seemed to have failed. He says: "I certainly was discouraged when I started to take Owa-Ton-Na as I had taken about everything that I had heard of that might help me and took Owa-Ton-Na as a last resort."

"I got so bad, I couldn't sleep on either side or flat on my back but had to be propped up in bed. My stomach burned like a ball of fire and I could hardly eat even the simplest foods. Hot fluid would come up into my mouth, gas and bloating spells were terrible. Sometimes I could hardly get my breath. Gas would crowd my heart so badly that I felt faint. Is it any wonder that I was discouraged when nothing seemed to relieve me? I would have terrible headaches and dizzy spells. I was getting weaker all the time."

"You can imagine how anxiously I kept on taking Owa-Ton-Na when I got some relief from the first bottle. Gradually I could feel my stomach getting better when this fine

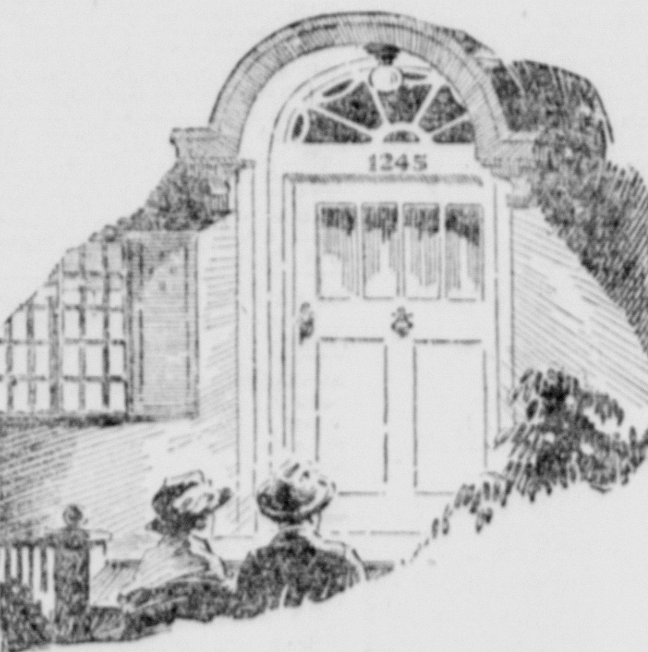

CHIEF OWA-TON-NA

old Indian Remedy got to work. Food didn't distress me as much as it did, and I could get some sleep at night. My bowels started to function normally, new they act regularly every day. My stomach feels fine. I can eat anything I want to and don't suffer afterwards. Headaches and dizzy spells are gone, in fact I feel like a new man. I can't praise Owa-Ton-Na too highly and I will be glad to tell anybody what this fine old Indian Remedy has done for me."

HOTEL WINTON

Highest
average in
convenience.

First choice among regular travelers for dozens of real reasons.

Many of the best things are not on Main Street. Quiet, for example.

HOTEL WINTON

Now for Something Good to Eat

YOU soon tire of a restaurant that has only seven bills of fare—one for each day of the week, and then back to the beginning again.

The two things that make a restaurant good are good food and lots of variety. Good food includes good cooking, and variety includes exploring the provision markets for the countless things that can be served, in season or out.

The pleasure of eating at any of the restaurants at Hotel Winton is increased by the wide variety of choice—a menu that is easy to read—a list of fixed price breakfasts, luncheons and dinners—a number of specials for which the house is famous, and—always—good foods properly prepared.

Weather Outlook

A trough of low pressure extends from the west coast northeastward to the lower lake region and dominates weather conditions over the eastern half of the country, except the north Atlantic states, and a high pressure area covers the western half.

As a result of this pressure distribution the weather is warm and unsettled with nearly general precipitation over the lake region and the central valleys. A change to colder has overspread the Rocky mountain and plains states and is now overspreading the Mississippi valley, turning the rain into snow in Minnesota and the Dakotas. The general eastward drift of the pressure areas during the next 36 hours will be favorable to unsettled, colder weather probably with rain in Ohio tonight and Tuesday, the rain possibly changing to snow flurries on Tuesday.
